 Short touch to adjust the colour temperature:  
2700K, 3000K, 3500K, 4000K, 5000K.  
Press and hold: Stepless CCT.

## INSTRUCTIONS

### I. Preparing the Mirror for Installation

1. Select the desired location on the wall (use a stud finder to check for studs) to hang the mirror.
2. Use a measuring tape to determine the wall mounting bracket position for the mirror.
3. Mark the location for the wall mounting bracket and its anchor holes.
4. Lift the mirror to the marked mounting points to ensure that it is level and aligns with the corresponding bracket on the mirror.
5. Drill the marks and insert the anchors into the holes.
6. Secure the wall mounting bracket to the wall with the provided screws.

### II. Connecting the Mirror to Power

1. Plug the mirror into a wall outlet to connect it to power.

### III. Installing the Mirror

1. Lift the mirror and bring it slightly above the wall mounting bracket and slide it down until the bracket on the mirror catches the bracket on the wall and interlock. It is best to have a second person assist with this installation.
2. Use the on/off & dimming touch button to turn the mirror on and off. Press and hold this button for dimming capabilities.
3. Press and hold the color touch button to adjust the color temperature.
